Aspiring web developer with 3 years of well-rounded experience. Skills include HTML, CSS, and JavaScript. Also experienced in PHP, SEO, advertising, multimedia production, and various Adobe programs.

Academic Experience

- Fabricated an online movie convenience store to showcase comprehensive and detailed code using only HTML and CSS. Demonstrated all necessary skills that a real company needed to acquire.
- Re-designed a local fictitious coffee shop with the goal of integrating frameworks, media queries, and responsiveness while implementing aesthetic appeal.
- Created an extensive website for a local company in Arlington in collaboration with another team member. The objective was to increase website traffic using SEO and other various techniques.
- Produced a fully working website for a small animal clinic using fundamental skills such as HTML and CSS. Executed a fully working login and appointment system using PHP and MySQL.

Education

B.A. in Communication Technology

University of Texas at Arlington

August 2012 – August 2016

UTA GPA: 3.2

Work Experience

Lowe's Home Improvement

Head Cashier / Supervisor | Mansfield, TX

August 2013 – December 2015

- Led a team of 20 plus cashiers while maintaining day-to-day operations effectively.
- Assisted in customer issues when manager on duty was not available or present.
- Demonstrated resourcefulness when learning new programs in a fast-paced working environment.
- Performed daily upkeep while ensuring product was displayed, stocked, and labeled correctly.

United States Navy

Aviation Maintenance Admin | Norfolk, VA

May 2006 - September 2009

- Honorably discharged as a U.S. Navy veteran after 4 years of active duty service.
- Managed all aeronautical records and logbooks with 99% passing inspection.
- Performed aircraft reliability charts using Microsoft Office to show week-to-week trends.
- Exhibited constant communication between other aviation fields to ensure inspections were complete.
